Disaster Response Research Project Protocol Amendment Checklist

This checklist is designed to streamline the process of IRB review prior to study initiation. Based on the type of disaster, this checklist will provide specific details of study setting, target sample size, procedures and questionnaires that will be administered, as well as exposures and potential health effects of interest. This checklist also provides information about modified study documents (i.e., consent document revisions, additional questionnaires, etc.).

I.	Type of Disaster	
Natu	ral Disasters	Man-made and Technological Disasters
☐ Flood☐ Tornado☐ Fire☐ Extreme Temperature/Drought		☐ Chemical release☐ Biological emergency☐ Explosion☐ Other
II.	Detailed description of disaster an	d justification for deployment:
III.	Organization providing subject contact information (if not public, indication of agency agreement is required):	
IV.	Research Setting:	
v.	Estimated Sample Size:	
VI.	Accrual Duration:	

VII.	Procedures:		
☐ Blood sample		☐ Urine Sample	
☐ Buccal cell sample		☐ Other	
\square Spirometry (lung function test)			
VIII.	Questionnaires (check all that will be co	ompleted during the visit):	
□ Hom	ne Inspection Checklist		
☐ Home Health Questionnaire			
IX.	Outcomes of interest:		
□ Card	diovascular System	☐ Muscular System	
☐ Digestive System		☐ Nervous System	
☐ Endocrine System		☐ Reproductive System	
☐ Excretory System		☐ Respiratory System	
☐ Immune System		☐ Skeletal System	
☐ Integumentary System		☐ Other	
х.	Provide a description of protocol, consent, and/or other document changes with section numbers.		
XI.	List of attachments:
